Indian Conference on Carbon Materials 2023

Carbon for Sustainable Future

November 30 - December 2, 2023

DAE Convention Centre, Anushaktinagar, Mumbai

Organized by: Indian Carbon Society, Maharashtra Chapter

Technical Associate: Materials Group, Bhabha Atomic Reserch Centre

www.carbonindia-iccm.com

INTRODUCTION

CARBON is a unique material with wide range of structures and properties. Though the research on carbon based materials started centuries ago, the interest has renewed with the advent of newer and exotic forms of carbon. The Indian Carbon Society, formed in 1979, has been organizing conferences on carbon materials at regular intervals till the pandemic disrupted the world. Since the last conference on Carbon Materials in 2019, when the researchers, students and industry representative met physically, there has been a gap of 4 years. To rejuvenate the researchers and the practitioners, the Maharashtra Chapter of Indian Carbon Society along with Materials Group, BARC is pleased to invite you to the Indian Conference on Carbon Materials.
